

INI Power Systems, Inc. issued another Laminar Flow Fuel Cell Patent: US7,252,898

MORRISVILLE, N.C.-- INI Power Systems, Inc. (INI), the leading developer of methanol-powered Laminar Flow Fuel Cell (LFFC[®]) systems, added to its comprehensive Laminar Flow Fuel Cell portfolio with US patent 7,252,898 issued August 7th, 2007. The patent extends the reach of INI's fundamental Laminar Flow portfolio exclusively licensed from the University of Illinois at Urbana-Champaign.
